Take a trip on the local bus
Do some sky watching and see how many
aeroplanes you can see
Go for an adventure to the park with your
scooter or bike
While your in the car play eye spy and let us
know what you saw

VOCABULARY

Transportation – refers to all the methods people use to move themselves and their goods from one place to another. It includes various modes such as walking, animals, bicycles, automobiles, trucks, railroads, ships, and airplanes

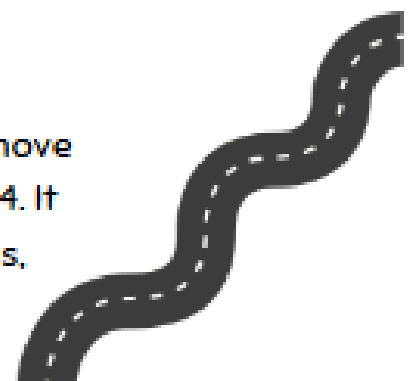

Vehicle – A vehicle is a machine to move people and things. It is not alive, unlike animals such as horses which can also move people and things

KEY FACTS

One of the oldest types of transportation is by boat.

In some parts of the world, people still travel mostly by walking or riding animals like donkeys, horses, and camels.

SONGS

Wheels On The Bus
I like to ride my bicycle
